

Folger McKinsey Elementary School

175 Arundel Beach Road | Severna Park, MD 21146 | 410-222-6560

January 27, 2010

Dear Parents and Guardians:

As you are well aware, construction work is scheduled to begin on our school at the conclusion of the current school year. The scope of the project necessitates that our students and staff be relocated while this work is done.

Provided that sufficient funding exists for the project to go forward, Folger McKinsey Elementary School will be housed in a portion of the Chesapeake Bay Middle School building at 4804 Mountain Road for the 2010-2011 and 2011-2012 school years. We have been working closely with our Facilities Division, our Office of School Performance, and our Transportation Department to ensure a smooth transition with minimal disruptions to the education of our students.

More information, such as specifics regarding transportation for students, will be forthcoming later this school year. Our school will continue to operate as a separate entity, with the same phone numbers and accessibility as has been the case at our current location.

I know that you join me in the excitement of the new opportunities that this project will bring about for our students. I also know I can count on you to support us over the next two years as we help clear the way to bring about these much-needed renovations.

If you have any questions or concerns, please do not hesitate to call the school at 410-222-6560.

Sincerely,

Susan Bachmann
